

DASARI VAMSI

Mobile: 9346135169

Email: dasarivamsi23@gmail.com

BIO:

I am a Junior software developer with expertise in a range of technologies including Java, Spring, JavaScript and PL/SQL.

Currently, I am working on a USA-based client, where I am involved in the development of an insurance-based application that handles financial services and end-to-end processing from policy to claims.

With over one year of experience as a full stack Java developer, One of my key contributions to this project has been the development of the agency module using Java and Spring framework, which has been instrumental in handling various operations related to insurance data for consumers who require services. In addition, I have provided application support as an individual, ensuring that any bugs are quickly accessed and redeveloped as required.

ACADEMIC DETAILS:

COURSE	BRANCH	INSTITUTE	BOARD / UNIVERSITY	CGPA	YEAR
B.TECH	CSE	Bhimavarm Institute of Engineering and Technology - Bhimavaram	Jawaharlal Nehru Technological University, Kakinada	60	2020 - 2023
